- 2 Analysis of the Desktop Survey
- 3 Geographical survey
- 4 Successful on-site survey leading to:
 - a Standard installation or
- 5 Quotation for non-standard installation leading to:
 - a Installation or
 - b Agreement not progressed

KEY FACTS

The following details the Key Facts of entering into an agreement for a wireless internet service provided by Thinkingwisp.

1. Thinkingwisp is a next generation Wireless Internet Service provided by a partnership of Norfolk based organisations. InTouch Systems and Community Action Norfolk have come together to provide communities with fast, reliable broadband connections.
2. InTouch Systems provides the administration and payment handling services, the installation and connectivity plus technical support.
3. A Thinkingwisp standard installation will require an engineer to fit a wall mount and receiver to the property. Cabling will be fixed to external walls to bring the service into the property via a small hole drilled through the wall. This will terminate at a wireless access device in the designated room. Wi-Fi coverage inside the property may be limited by the internal structure and fabric of the building.
4. A non-standard installation will be advised at the point of on-site survey and a quotation provided for the additional work.
5. The obligation to provide the service is subject to survey. If a survey shows that the service cannot be installed or connected at the premises, the agreement will be terminated with no charge to the customer.
6. The property must be accessible with normal / roof ladders and any damage to roof tiles is not the responsibility of the installation company.
7. The customer is responsible for applying for any consents and permissions necessary for the installation of the equipment.
8. The customer or an authorised person must be present when the equipment is installed.
9. All equipment provided will remain the property of InTouch Systems and access may be required in the future to alter or replace the equipment previously provided. The customer must advise InTouch Systems in the event of any loss of or damage to the equipment and the customer will be responsible for the cost of replacing the equipment.
10. A fee of £75.00 is payable if the customer cancels a confirmed booking within 48 hours of the agreed appointment or if the customer is not at home when agreed or if relevant information is not provided at the time of application such as the property being listed.
11. Use of the service is subject to conditions including a fair usage policy and acceptable use policy.
12. Payment is by Direct Debit and will be collected by InTouch Systems on or around the 25th day of the month. Invoices will be sent electronically unless otherwise specified.
13. Should the customer move to another address within the Thinkingwisp service area, services can be moved to the new address subject to the service transfer charge. However, there is no guarantee that the service will be available at the new address.

Full terms and conditions of supply can be found on the Thinkingwisp website at: <http://www.thinkingwisp.co.uk/terms-conditions/> and by signing this document, you are agreeing that you have read and agree to be bound by these terms.
